NORTH BEACH - BYRON BAY

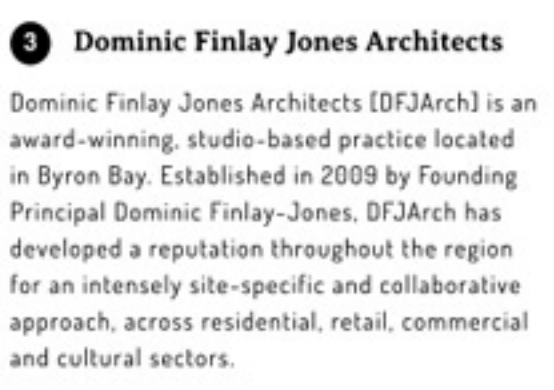

1 Byron Bay Train

Operating daily services

NORTH BEACH TRAIN STATION, BAYSHORE DRIVE

The Byron Bay train, the worlds-first solar powered train, will commence passenger services from December 2017 between the North Beach Station and the Byron Beach station, at the top end of Byron town. This vintage 100 seat rail motor operated by Byron Bay Railroad Company, has been fully restored in heritage fashion and converted to solar electric operation, a first in the world. The service will operate daily with a one way fare of \$3 for adults.

Tickets can be purchased on the train and for timetable details visit [byronbaytrain.com.au](http://byronbaytrain.com.au)

2 Habitat

NORTH BEACH, BYRON BAY

Byron Bay's much anticipated mixed-use live/work hub, Habitat, is now open for business. The development, nestled between The Arts and Industry Estate and Elements of Byron, is designed to provide a range of commercial office and live/work housing options for Byron's dynamic business community.

The philosophy behind Habitat is simple - to create a place where like-minded, forward-thinking people can live and work in a socially and environmentally progressive village environment.

Planned across several stages, Habitat includes a commercial precinct spanning six two storey buildings that combine office, studio, gym, retail and café spaces, along with a series of residential/commercial townhouse and warehouse loft apartments. The first stage of residential 'live/works' have sold, with a second stage to follow. *Designed by Dominic Finlay Jones*

9 Barrio Byron

Open MON - WED, From 7AM - 5PM + THURS - SAT, From 7AM - 10PM

Barrio, meaning "neighbourhood" in Spanish is designed to feel like a home from home, bringing together the local community in a relaxed environment for all-day dining.

Barrio takes its influence from the wood-fired oven and charcoal grill, a great culinary tradition that enhances flavour and respects the virtues of the product. Francisco Smoje's cooking is authentic without clinging to convention - working with traditions, but also bringing a new palate of flavour to the Byron Bay dining scene.

The weekly changing menu is full of harmonious contradictions: it's vibrant and bold yet familiar and comforting: it's beautiful to look at yet close to its original form.
