## Business results in meaningful spaces. Unsurpassed event facilities in Byron Bay.

---

Sited on the edge of an ancient volcanic caldera, the Byron region was originally known by The Arakwal people, one of the tribes of the Bundjalung Nation, its traditional custodians, as 'Cavanbah', which means 'meeting place'.

Today Byron Bay is one of the world's premium, unspoiled leisure destinations. Amidst a backdrop of majestic rainforests and pristine oceans, Byron attracts many visitors every year to play, work, and most of all, gather together.

Surrounded by 50 acres of grasslands, forests, rolling dunes and the pristine ocean frontage of Belongil Beach, Elements of Byron streamlines its priceless natural setting with unsurpassed event facilities and 202 freestanding, private, sustainably designed villas.

For groups seeking a memorable, rejuvenating business event, the resort provides welcoming, luxurious, nature-filled spaces to reconnect, recreate and immerse in genuine wellness. With authentic customer service and Byron creative flair, Elements of Byron is the ultimate destination for businesses and organisations.
